

**CALL FOR PAPERS
FOR THE THIRD ANNUAL
TECHNICAL SESSIONS
SUNDAY, SEPTEMBER 21, 2008
AT THE SOLAR FIESTA**

We are in search of submissions for the Technical Sessions on Sunday of the Solar Fiesta. The sessions will consist of a series of 15-20 minute talks on a wide variety of technical issues related to solar and renewable energy and presents an excellent opportunity to share your experiences and findings with our organization, your peers and the technical community at large. Papers should be between one and five pages including graphics and will be reviewed by a committee for selection to present at the Solar Fiesta.

Here are some suggested topics or directions for submittal:

- Information on current or past research
- Tell us about your company and its growth
- Share one of your exciting or challenging projects
- Tell us about a specific product and how it works
- Information on educational opportunities
- Wow us with charts, graphs, flow charts and bubble diagrams
- Any other technical information that is applicable for this discussion

We have asked some of our long standing professionals and past board members to help support this session by being on the committee to review submittals and help produce a well-rounded, first-rate session. Through interdisciplinary cooperation and sharing we aim to make this technical session an educational, productive and beneficial experience for all parties involved.

**PLEASE SUBMIT YOUR PAPER BY EMAIL ([INFO@NMSEA.ORG](mailto:info@nmsea.org))
OR MAIL TO NMSEA BY AUGUST 1, 2008.**
