New Mexico Solar Energy Association
presents

Solar Fiesta!

New Mexico's Premier Renewable Energy
and Environmental Education Fair

Power Shift!

It's our
planet.

It's your
choice.

September 26-27, 10am to 5pm
Highland High School, ABQ

Go to Exhibits and Workshops:

Shift into action!
Choose conservation and efficiency.
Choose renewable energy!
Be informed.
Be empowered and enthused.
Save money on energy!
Explore a new career.
Green the environment.

Sept. 26 & 27, 2009

at Highland High School

Exhibits are open 10am-5pm
Free workshop begins 9am

Power Shift!

You can reduce your energy bills!

As this year's theme suggests, you can take control of your energy use, bills and power sources. Shift your power requirements. Use simple conservation measures and tightening your home for free and low-cost ways to lower your bills. Invest money saved into energy-efficient appliances.

Choose greener products and services. Learn of financial incentives to help afford solar heating, cooling and electricity, fuel-efficient vehicles, and green building. Take charge!

Events for Everyone!

Free Workshop

We offer a free workshop each morning at 9am. This year's includes tips on reducing your energy bills.

Exhibits Galore

Meet professionals in solar and sustainable industries and organizations. Find qualified installers. Answer your questions, from basics to the nitty-gritty. See new products.

Adult Workshops

See our website for the robust schedule of classes on renewable energy, energy efficiency, sustainable living and green career preparation. Purchase a single class (\$10) or invest in a day or weekend of inexpensive education (\$30/\$50).

Special Activities

A **Tesla Roadster** will be on display on Sat. from 2pm-4pm. On Sun., a **Solar Bake-Off** will be from noon to 2:30pm.

Topics for Exhibits/Workshops

Solar and Green Financing

Energy Savings
Federal, State and Utility Incentives

Solar Electricity

Grid-tied PV * Remote PV * Wind * Hybrids

Solar Thermal and Water

Hot Water * Pool & Radiant Heat * Solar Cooling
Solar Pumping * Catchment * Greywater

Green Building

Passive Design * Alternative Materials

Alternative Fuels

Biodiesel * Veggie Oil * Electric/Hybrids
Green Career Development and More!

Especially for Children

Start in the Kids Area to get your **Scavenger Hunt**. Visit exhibits to gather solar clues and win a prize.

APS offers free **solar model cars**, assembly workshop and races to 3rd-5th graders on Sat. at 10am and 2pm. **NMSEA** will have **solar model car races** between 11am and 1pm each day. Bring your own or purchase one to assemble and race.

Check our website and **Solar Fiesta Guide** for a schedule of the **Energy-On-the-Move** (Cleveland MS), **Zoo-to-You**, **Talking Talons** and the **Albuquerque Astronomical Society**.

Special Offerings

Green Careers Track

On Saturday, one workshop track will focus on green jobs education and training in NM and stories, guidance and advice from green professionals.

Professional Track & Technical Sessions

The Technical Sessions are back as part of Sunday's Professional Track. These presentations are designed specifically for the professional community, but the technically-minded public is welcome.

Other Activities

Adobe making. Raffles for children and adults. Silent Auction. Solar-baked cookies. Food concessions.

Volunteer!

For Solar Fiesta and during the year, we rely on and greatly appreciate volunteers to make NMSEA a success.

Contact us to offer your time. Meet like-minded people. No solar knowledge needed!
